:: How to Make Your Jake-o-lantern ::

Step 1:

Make a lid for your pumpkin. Cut a circle or a hexagon at least 5 inches in diameter around the pumpkin's stem. Make sure to cut out the lid at an angle (so that the outside edge is larger than the inside) to keep it from slipping inside.

Step 2:

When the lid is free, scrape the inside of the pumpkin and the lid clean of seeds and pulp with a large metal spoon.

Step 3:

Ask an adult to help you cut out the stencil along the dotted lines.

Step 4:

Tape your stencil to the pumpkin. Trace around the inside edge of the template with your marker. Remove the stencil and tape.

Step 5:

Ask an adult to help you use pumpkin carving tools to cut out your traced template from the pumpkin.

Step 6:

Place an LED candlelight inside your pumpkin, put on the lid, turn out the lights and enjoy the glow of your Jake-o-lantern!
